

NOTE OF RECOMMENDATION

I am happy to recommend Andrew of Star Master Painting & Decorating to anyone requiring those services.

The work he did for me was the complete external preparation and painting of my home, garage and garden fences. It included the repair and very comprehensive preparation of surfaces including high pressure cleaning, filling and sanding of spouting gutters bargeboards, windows doors etc. and included all of the outside brick walls, large areas of trellis, pergola, wooden gates and garden fences, then the required sealing with an appropriate undercoat followed by two coats of quality topcoat paint.

All I was required to do was choose the colours and types of paint, Andrew's professional knowledge and experience in the trade was of great assistance in this process.

Andrew is reliable and does the work when he agreed. His prices have been considered to be fair and reasonable by all those I know who have used him. He takes pride in his work and goes to some trouble in following up to and ensure his customers are satisfied.

Andrew came to me through personal recommendations, and I have had no hesitation in turn recommending him to friends and relatives, a number of whom have used his services.

I am very pleased and satisfied with his work and would not hesitate to use him again.
